

Aligned Physical Therapy LLC
Eugene, Oregon

We have an immediate opening for a physical therapist who places patient care first. Our outpatient orthopedics practice is small, which gives us the flexibility to meet your employment needs. We set our own schedules and communicate directly with our patients. You can choose your appointment times and duration to meet your patients' needs (and yours!). The job will start part time but may grow if desired. After six months of employment, benefits will be negotiable for therapists averaging over 30 hours of patient care per week. Therapists are paid by the patient.

We are experienced manual therapists who emphasize early transition to independent exercise and self-care. Our patient population is mostly educated professionals who are motivated to progress. Our patients are invested in us because they know we are invested in them.

Ben Bleazard has completed an orthopedics residency and mentored for four and a half years under one of the founding fellows of the Institute of Physical Art.

Candidates must be able to work with minimal supervision so will need to have at least three years of experience. Preference will be given to those with more experience and those who have completed formal training programs in manual therapy.

Other perks of the position include: your own large office / treatment room, no aides or PTAs to supervise, potential for mentorship or casing, and the opportunity to be truly independent in your patient care.

Send resume or questions by email to Ben Bleazard at Ben@AlignedPT.com or fax to 541-345-8867. You can call with questions at 541-345-8895.
