

MedStar Georgetown University Hospital

Physical Therapists – Outpatient/Inpatient Adult, New Hire Bonus! Full Time, Days, Washington, DC

MedStar Georgetown University Hospital is one of the largest healthcare delivery networks within the Washington, D.C., area and we are seeking full-time outpatient and part-time inpatient Physical Therapists within our adult setting. Our clinicians focus on manual therapy, neuromuscular re-education and progressive exercise programs. They also provide some of the most sophisticated treatments and technologies available to include intramuscular therapy (trigger point dry needling), real-time or diagnostic ultrasound imaging, and, most recently, dorsaVi (wearable sensors).

We offer:

- New Hire Bonus
- Schedules allow for one-on-one treatment sessions and built-in documentation time
- Competitive compensation and generous benefits
- Superb educational opportunities plus tuition assistance
- Complementary education days
- Weekly in-services
- Mentoring program
- Clinical ladder
- Wellness programs
- Free shuttle from Metro stations

Responsibilities:

- Positions are entry-level staff therapists who participate in the evaluation and treatment of patients based upon current principles and practices of PT.

Qualifications:

- Graduate from accredited school of physical therapy.
- Entry-level; experience not required but preferred.
- Current D.C. license or qualified candidate for D.C. license as a Physical Therapist. Upon hire, must have a D.C. license or be eligible for a reciprocity license, or have made application to sit for the board examination.
- Current CPR certification.
- Demonstrates baseline knowledge of relevant PT practice and flexibility.
- Can objectively analyze situations, identify and problem solve.
- Listen effectively and present self orally and in writing.
